⚡ Denotes special US Desmo or Ducati event

Ducati uses the M2X1.5X12 drain plug on all the air cooled engines from around 1987.

The stronger the magnet, the cleaner the oil.

All Dimple® Ducati plugs are drilled for safety wire.

Ducati is one of the most technologically advanced motorcycles on the planet! So we did what we do best and designed a superior drain plug that would be up to the standard of the rest of the bike, magnificent!

Ducati uses the popular M12X1.5X12 drain plug for the high powered water cooled machines.

See drainpluggmagnets.com for other motorcycle, automobile and internal combustion engine applications.

DIMPLE® Oil Plugs will EXTEND the life of your vehicle!
