**THE APRILIA RSV4...PODIUM
SOLD SEPARATELY.**

The Aprilia RSV4 was developed for the most demanding of circumstances. Specifically, the Superbike World Championship, where it earned nine podium finishes in its inaugural season thanks to breakthrough technology like a 65-degree, V-four cylinder 180 hp engine. Multi-map Ride-by-Wire technology allows the rider to control the power delivery between Track, Sport, and Road modes to tackle any road condition. Add a lightweight aluminum frame and fully adjustable racing suspension, and both handling and performance are stunningly agile. A Superbike on every level.
